1. Getting Started

Before you can use the platform, you need to create an account or log in. This section walks you through the sign-up process and how to recover your password.

1.1 Creating an Account

1	Go to the homepage Open the app and click Sign Up on the main screen.
2	Enter your details Fill in your name, email address, and a secure password.
3	Submit the form Click Register — you will be taken to the dashboard automatically.

1.2 Logging In

1	Navigate to the login page
---	-----------------------------------

	Click Login from the homepage.
2	Enter your credentials Type your registered email and password.
3	Click Login You will be redirected to your dashboard.

1.3 Forgot Your Password?

1	Click Forgot Password? Located on the login page, just below the password field.
2	Enter your email An OTP (one-time password) will be sent to your registered address.
3	Enter the OTP Type the code from your email within the time limit.
4	Set a new password Choose a new password and confirm the change.

Tip: If you did not receive the OTP, check your Spam or Junk folder. Make sure the email you entered matches the one used during sign-up.

2. User Features

This section covers everything a regular user can do: joining quizzes, creating them, playing, and managing your profile.

2.1 Joining a Quiz

Use this when a host has shared a Room Code with you and you want to participate.

1	Open the dashboard After logging in, you will see the main menu.
2	Select Join Quiz Click or tap the Join Quiz button.
3	Enter the Room Code Type the code provided by the quiz host (e.g. QUIZ-4821).
4	Wait in the lobby You will enter the Waiting Room. The quiz begins once the host starts it.

2.2 Creating a Quiz

As a host, you can generate a quiz with AI-crafted questions and share it with your participants.

1	Select Create Quiz Click Create Quiz from the dashboard.
2	Configure your quiz Set a topic, difficulty, number of questions, and time limit per question.
3	Generate questions The AI integration will automatically generate questions based on your settings.
4	Share the Room Code A unique Room Code will appear. Send it to your participants so they can join.
5	Start when ready Once participants are in the Waiting Room, click Start Quiz to begin.

2.3 Playing a Quiz

Once the quiz is live, here is what to expect during gameplay.

1	Answering Screen loads automatically When the host starts the quiz, your screen switches to the question view.
2	Select your answer Choose your answer before the timer runs out. Answers are submitted in real-time via WebSockets.
3	Track your rank Check the live Leaderboard after each question to see how you rank against other players.
4	View your results At the end, the User Score page shows your final score and a breakdown of each question.

Your answers are sent the moment you select them. You cannot change an answer once submitted, so choose carefully before the timer expires.

2.4 Profile Management

Keep your account details up to date and review your past quiz history.

1	Click your profile icon Located in the top corner of the screen.
2	View your history See your past quiz scores, accuracy rates, and participation records.
3	Update your information Edit your display name, email, or password from the profile settings.

3. Admin Features

You must have an Admin account to access these features. Standard user accounts cannot see the Admin Dashboard.

Admins oversee platform content and user accounts. Access the admin tools through the Admin Dashboard.

3.1 Managing Users

View, create, update, or remove user accounts on the platform.

1**Open the Admin Dashboard**

Click your profile icon and select Admin Dashboard.

2**Go to User List**

Select the User List tab to see all registered accounts.

3**Manage an account**

Use View User to inspect details, Update User to edit information, or Create User to add a new account manually.

3.2 Managing Questions

Review and maintain the question bank that powers the AI quiz generator.

1**Go to Question List**

In the Admin Dashboard, select the Question List (Managed Questions) tab.

2**Browse the question bank**

View all existing questions organised by topic and difficulty.

3**Edit or add questions**

Use View Question and Update Question to refine existing entries, or add new questions to expand the bank.

4. Troubleshooting

Below are solutions for the most common issues. If your problem is not listed, contact platform support.

Problem	Solution
Cannot connect to quiz	Check your internet connection. This app uses real-time WebSockets, so a stable connection is required throughout the session.
OTP not received	Check your Spam or Junk folder. Confirm the email you entered during sign-up is correct.
Answer not submitted in time	Answers must be selected before the timer runs out. Ensure your connection is stable to avoid delays.
Admin features not visible	These features are only available to Admin accounts. Contact your platform administrator if you need elevated access.

Enjoy your interactive learning experience!
